**Group
Assignment
100%**

OBJECTIVE

This assignment is meant to test if students are able to put into work all that have been discussed in both theory class.

REQUIREMENTS

- Students are expected to work in a group.
- Students are expected to make use of their slides and also the lab.
- Students should clearly acknowledge all sources of ideas and quotations used in the assignment.

SUBMISSION INFORMATION

- Submit the complete website files in a zip folder, including HTML, CSS, images, and any other assets.

Submission email: joacarlos.baptista@limkokwing.edu.na

SPECIFIC INFORMATION

- This is an Group Assignment and it contributes 100% of Assignment coursework.
- The assignment is worth **100 marks**

The following is the mark deduction for this assignment:

- Late submission = 5 marks will be deducted daily preceding the deadline for submission
- **Plagiarism = 0% is awarded immediately.**

Objective

Create a basic and visually appealing e-commerce website to showcase and sell products. This project will help you apply your HTML and CSS skills while practicing good design and teamwork.

What Your Website Must Have

Build a 5-page website with the following structure:

1. Home Page

- Welcome message and intro to your online store
- Banner image or hero section
- Featured products section (2–3 items)
- Navigation links to other pages

2. Products Page

- Display 6–8 products in a clean, grid/card layout
- Each product must show: Product Name, Price, Short Description, Image
- Hover effects for interactivity (e.g., highlight or 'View More')

3. Product Details Page

- Choose 1–2 products to show in full detail
- Include: multiple images, full description, price, and features

4. About Us Page

- Brief bios of group members (2–3 lines each)
- Group photo or logo
- Short message about your business/idea

5. Contact Page

- Contact form with: Name, Email, Message
- Include contact details or a location map (optional)

6. Design and Styling Tips

- Use CSS for layout and design
- Use Flexbox or Grid for product layouts
- Maintain consistent fonts, colors, and spacing
- Include hover effects and a "Back to Top" button if possible
- Make sure all pages are well-linked with a working navigation bar
